SUMMARY

I'm a frontend developer with over 2 years of experience building responsive and high-performance web applications using JavaScript, React, and Next.js. I've delivered multiple e-commerce projects, improving UX and optimizing performance. Skilled in SCSS and Tailwind, I focus on clean, maintainable code and intuitive user interfaces. Passionate about building modern web products and continuously advancing my skills.

WORK EXPERIENCE

FRONTEND DEVELOPER
Craftera Digital — Frontend Developer
Jun 2024 – Feb 2025 (Remote work)

- Worked on projects for multiple clinics, responsible for frontend development:
- Developed responsive layouts and interactive elements.
- Used Nunjucks and JavaScript to build websites.
- Collaborated with the team to integrate all functionalities and enhance the user experience.

FREELANCE FRONTEND DEVELOPER
Freelancer (Upwork) — Frontend Developer
Jan 2024 – May 2024 (Remote work)

- Developed and maintained e-commerce websites using React and Next.js.
- Focused on building responsive layouts with SCSS to improve UX/UI.
- Optimized storefront performance and checkout flows for better conversions.
- Collaborated with clients to develop custom e-commerce solutions.

FRONTEND DEVELOPER
FusionUp
May 2023 - December 2023

- Developed responsive layouts using HTML, CSS, and SCSS, collaborated with designers to create interactive UI elements, and helped troubleshoot and maintain web application functionality.
